

Certification of Operational Carbon Footprint Reduction

CarbonQuota has assessed and certified a reduction in the greenhouse gas emissions associated with the following activity.

Company:	Mailteck S.A.
Facility:	P.E. La Laguna, Av. Recomba, 14 28914 Leganés, Madrid, Spain
Latest greenhouse gas emissions (2020):	Location-based: 516,72 tonnes CO ₂ e
Location-based carbon intensity reduction:	2019: 0,595 tonnes CO ₂ e per tonne of substrate purchased 2021: 0,460 tonnes CO ₂ e per tonne of substrate purchased
Date:	24th May 2022

CarbonQuota has assessed the greenhouse gas emissions associated with Mailteck S.A. direct operations.

The period 1st January 2020 - 31st December 2020 was measured against the same period in 2019 and resulted in a 23% reduction in the intensity ratio of CO₂e measured against tonnes of substrates purchased.

The operational boundaries of this study comprise the Scope 1 GHG emissions associated with refrigerants, Scope 2 GHG emissions associated with location-based purchased electricity and Scope 3 emissions associated with business travel.

All additional Scope 1, 2 and 3 GHG emissions were excluded.
